*“We take the time to ensure we have defined your exact business needs, detailing the costs for each defined service and then we deliver to those needs as defined, **on time and on budget.**”*

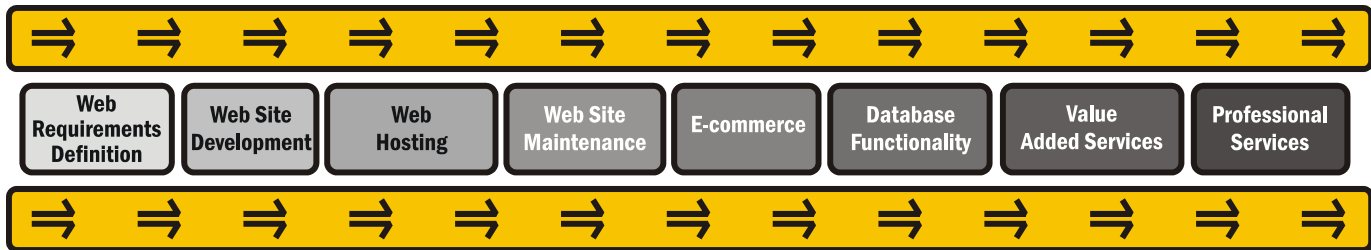

Why choose us?

All businesses with an online presence require web services to complete a website requirements definition, web design, web site maintenance, web hosting and delivery of special value added service.

The question is whether you complete the work internally, outsource to multiple providers or find one quality provider who can deliver all the necessary services, be accountable and responsive to your evolving online business needs.

**EdWare Technologies** a single source service provider proposition providing for all your web services needs.

Our service plan structure offers bundled web service solutions as well as unbundled services, all dependent upon your small or medium business needs.
